ERDOGMUS, et al. Blind Equalizers Using Probability Density Matching and Parzen Windowing 5853-407-1

1 of 3

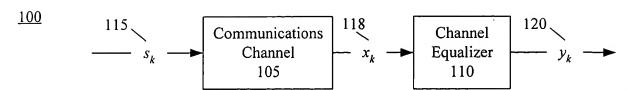

FIG. 1

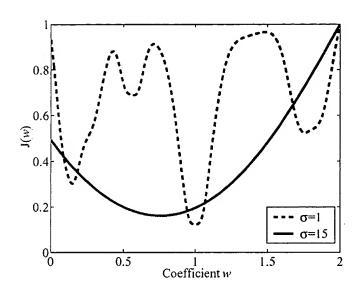

FIG. 2

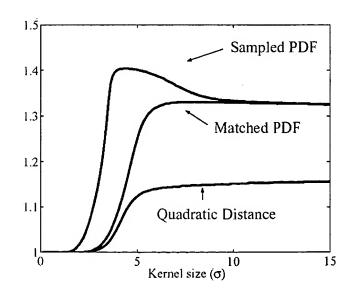

FIG. 3

5853-407-1 2 of 3 <u>400</u> Set initial kernel size indicative of blind equalization 405 Apply blind equalization to input signal 410 Evaluate error statistic 415 Calculate updated kernel size using function involving error statistic 420 Selectively apply blind equalization or decision directed equalization according to kernel size 425

ERDOGMUS, et al.
Blind Equalizers Using Probability Density
Matching and Parzen Windowing
